SUSTAINABLE PACKAGING OPTIONS

- **BIOTRĒ | COMPOSTABLE PACKAGING**
- **POLYRECYCLE™ | RECYCLE-READY BARRIER PACKAGING**
- **POST-CONSUMER RECYCLABLE (PCR) BAGS**

TricorBraun Flex is committed to supplying reliable, safe, and durable sustainable packaging options to our petfood customers.

Biotrē™	
Biotrē™ 1.0	60% compostable, 60% renewable, not including the valve. Earth-friendly, heat sealable barrier material. Available in all our Biotrē™ stock packaging lines.
Biotrē™ 2.0	60% compostable, all-renewable film layers and degassing valve. Currently available in our custom packaging.
Biotrē™ 3.0	Biotrē™ 3.0 is certified compostable by the Biodegradable Products Institute (BPI). Majority of film layers are made from plant-based sources. Curbside compostable per ASTM.
